17. **Munisa bint Ibrahim ibn Abd al-Masih - New Name & New Device. *Azure, on a pale inverted endorsed plain Or, a peacock proper between two crosses potent azure.***

The submitted name had accents and with help from the Society College of Arms Heralds, the common version of the name was developed. The submitter accepted this.

The submitted device had the peacock significantly larger than the crosses on the pale (vertical stripe). The tertiary charges (items) on this pale (stripe) must be of equal size. The device was redrawn to reflect this size change and the submitter accepted.

18. **Raffaello Dellarosa - New Name.**

The submitted name had the by-name della rosa which is a feminine noun. Because the submitter wished to have a masculine name, we have changed the by-name to Dellarosa which is a family name.

19. **Tala of Circle Hill - Resub Name & New Device. *Quarterly purple and vert, a triskelion of spirals and a point argent.***

The submitted device had the inside of the triskelion of spirals voided. We redrew the device with this coloured in which the submitter approved.

1. **Raffaello Dellarosa - New Device. *Per pale argent and erminois, a rose proper and three bendlets enhanced sable.***

This device was returned for style issues. Specifically, there are two steps from period practice. One: the position of the rose, and two: the position of the bendlets. The SCA Standards for Evaluating Names and Armory (SENA) restricts the use of steps from period practice to one. The proposed device has two.
