

**Kingdom of Avacal College of Heralds  
Kingdom Submissions Letter of Decisions  
June 19, 2017**

Greetings to the Avacal College of Heralds from HL Arwyn of Leicester, Kingdom of Avacal Submissions Herald.

The following submissions will be forwarded to Laurel on the Avacal external letter dated 2017-06-30 and were taken from the Avacal KLoI of 2017-05-16.

Forwarded to Laurel Sovereign of Arms:

**1: Myrgan Wood, Barony of -Resub Appeal of Kingdom Return of Badge, (*Fieldless*) *An elm tree eradicated proper, leaved gules.***

Myrgan Wood is petitioning that in their opinion an elm tree is significantly different than a créquier. Additional questions and requests for rulings were added by commentary to the appeal and have been forwarded onward as per Administrative Handbook.

The following submissions were returned for further work:

**1: Alric the Indecisive -New Name**

The byname of “the indecisive” attempted to use the Lingua Anglia rule. This rule allows “the registrations of translations of attested and constructed descriptive and locative bynames into standard modern English”.

The submission and/or the commenters could not find documentation of “indecisive” in Old or Middle English or alternative languages. Several examples of alternative similar descriptive by-names were provided but none meaning “indecisive”.

**2: Alric the Indecisive -New Device, *Vert, two arrows in saltire points to chief, and on a chief embattled Or, an awl point to dexter proper.***

Administratively, this device is returned due to a lack of a primary name to associate it with. We had several concerns regarding the device as well.

The awl is drawn as a modern scratch awl and all previously registered awls are very needle like compared to the thickly drawn one submitted. If retained in its current form, most likely the blazon would be changed to a knife removing the potential cant that the submitter wants.

The awl is drawn with a wooden handle and a silver blade. Previous awls have been only registered with single tinctures. If the submitter wants to have this colouring, we caution that normal tools are registered with the working end of the tool especially if the awl is redrawn. If so, then there may be a lack of contrast between the awl and the golden chief. Alternatively, if drawn  $\frac{1}{2}$  and  $\frac{1}{2}$ , then we may be able to argue that the charge is neutral and hence may not have contrast issue.
