Greetings to the Avacal College of Heralds from HL Arwyn of Leicester, White Wyvern Herald, Kingdom of Avacal Submissions.

The following submissions will be forwarded to Laurel on the Avacal external letter dated 2018-01-31 and were taken from the Avacal KLoI of 2018-01-05

Forwarded to Laurel Sovereign of Arms:

1: Amy Eliot -New Badge, *Per bend sinister azure and sable, a loaf of bread and a wheel of cheese Or*

Blazon was changed from *Per bend sinister azure and sable, a bread loaf and a wheel of cheese Or* to *Per bend sinister azure and sable, a loaf of bread and a wheel of cheese Or* to follow previous blazoning practices.

2: Lorette de Chasteauneuf -New Device, *Per pale argent and purple, a cinquefoil and a bordure counterchanged.*

Blazon was changed from *Per pale argent and purple, a cinquefoil and a bordure counterchanged* to *Per pale argent and purple, a cinquefoil and a bordure counterchanged* to better describe the emblazon (picture)

The following submissions were returned for further work:

1: Kage Tarou Masahiro -New Name & New Device

The name is returned due to lack of documentation of "Kage" being used as a surname. Specifically, we as well as the Known World heralds were unable to find "Kage" as a surname in our normal documentation. We could find "Kageyama" (蔭山) in the latter source, dated to at least 1590. You specifically asked for "Kage", it does not meet that requirement. An alternative, Kaga'i can be documented in our sources but again that is not what you specified.

The device was administratively returned because it lacks a primary name for filing purposes. However, it also would have been returned because it has too many heraldic layers.

Although the lotus flower is drawn like a heraldic rose, the flower would be the first layer. The white circle (roundel) in the middle would be the second. The swirl would be the third and the symbol kanji for kage would be the fourth.

The following submissions were still pended until next meeting:

1: Saxa Amelia Africa Na -New Device.

This device was coloured with orange and not the standard heraldic yellow or Or. Therefore, we have pended the device in an attempt to get a hold of the client to approve the re-colouring. Client has been contacted and has been asked to send an email with the permission.
